Ministers from **26** African countries and numerous Deputy Ministers attended the forum with high-ranking delegations. The German-African Forum brings together senior-level representatives from governments, utilities, regulators, financial institutions, technology providers and large energy consumers.  
**Come and initiate your new projects and partnerships!**

## Our sponsors – throughout the years

» When it comes to Energy in Africa, the Energy Forum is a kind of must for the German audience – great to network, good opportunity to present your company and helpful to get access to African political and business representatives.«

Christian B. Klein, Siemens AG  
 Coordinator for Africa at  
 Siemens Government Affairs

» This is a great Forum to develop strategic relationships, learn about innovations in the Energy sector and have productive debates on how to further develop fruitful German-African relationships in this sector.«

Josephine Wapakabulo  
 Uganda National Oil Company  
 (UNOC), CEO

» A great platform to network amongst policy makers, end-users, and technology providers in a constructive, learning oriented environment. It is a time-efficient and productive investment for participants from all stakeholder fields.«

Tobias Becker  
 ABB  
 Director Africa

## Sponsorship

Share your expertise, showcase your products and services. Network with decision-makers from Africa's energy markets! **Your benefits:**

- **High visibility during and prior to the conference** (your exposed company logo linked on the event-website, on all conference material and on digital displays during the conference)
- **Free conference participation**
- **Speaking slot** in a panel of your choice
- **Exhibition space and individually arranged B2B-meetings with African Ministers and high-level international guests** (gold & platinum sponsors only)

Let us have your wish list of companies you would like to meet. We'll invite them to the event and introduce them to you (this service is provided to sponsors and exhibitors only).
